### Motorola Bluetooth® In-Car Headset H620

Motorola's first headset optimized for use in a car, the Motorola H620 allows consumers to have clear calls while keeping their hands on the wheel.<sup>1</sup> With road noise reduction and echo cancellation technology, the Motorola H620 makes it simple to stay connected while in the car and on the go.

#### **Quiet the Drive**

The Motorola H620 delivers outstanding audio performance. With both noise reduction and echo cancellation technology, road noise is reduced and the user's voice sounds clear. It automatically adjusts the volume as road noise increases so that calls come through clearly and users can easily access mute and voice dialing with a touch of a button, all while keeping their eyes on the road.

#### **Hands-Free Made Easy**

The H620 makes it easy to stay connected on the road. With the included rapid car charger, users can quickly recharge the device while driving. The included dashboard headset holder keeps the H620 easily accessible making it the complete in car solution.

#### **Comfort and Style**

The H620 features Motorola's patented TrueComfort™ design with multiple ear cushion choices to ensure the best personal fit. The ear cushions also channel clear audio directly into the user's ear and create a seal to help reduce background noise. The H620 keeps users connected in style with a sleek design featuring metalized accents and sophisticated subtle finishes.

#### **Start Simple**

EasyPair technology makes it simple to connect with more than 200 compatible Bluetooth enabled devices, including non-Motorola handsets.<sup>2</sup> The headset also keeps users aware of battery level with its discreet three-color indicator light.

<b>Motorola Bluetooth In-Car Headset H620</b>	
Talk Time	Up to 7 hours
Standby Time	Up to 8 days
Battery	Rechargeable, non-replaceable battery

*All features, functionality and other product specifications are subject to change without notice or obligation.*

<sup>1</sup> The use of wireless phones while driving may cause distraction. Discontinue a call if you can't concentrate on driving. Additionally, the use of wireless devices and their accessories may be prohibited or restricted in certain areas. Always obey the laws and regulations on the use of these products.

<sup>2</sup> This device supports Bluetooth hands-free profile. In order for Bluetooth devices to communicate with one another, they must utilize the same Bluetooth profile. To determine the profiles supported by other Motorola devices, visit [www.motorola.com/bluetooth](http://www.motorola.com/bluetooth). For other devices, contact their respective manufacturer.

Certain Bluetooth features including those listed may not be supported by all compatible Bluetooth-enabled devices, and/or the functionality of such features may be limited in certain devices, or by certain wireless carriers. Contact your wireless carrier about feature availability and functionality.

*Look for the Motorola Original hologram on this product to help ensure its authenticity.*
